# SCOTT LCG FAMILY

**SLIDER**  
Enables user to quickly  
and easily secure and  
release lens

**LENS HINGE**  
Keeps lens accurately  
positioned throughout  
process

**LENS HOOK**  
Ensures secure fit between  
lens and frame

## TWO DESIGNS, TWO SIZES, CONSISTENT INNOVATION.

THE LCG FAMILY IS GETTING A LITTLE BIGGER IN 2015-16 WITH THE ADDITION OF THE LCG COMPACT, A SCALED-DOWN VERSION OF THE AWARD WINNING LCG, WHICH UTILIZES SCOTT'S INDUSTRY LEADING LENS CHANGE SLIDER SYSTEM AND CARRIES AN UPDATED VERSION OF THE BRAND'S POPULAR FIT SYSTEM. THOSE LOOKING FOR THE AWARD WINNING LCG GOGGLE NOW HAVE TWO GREAT OPTIONS.

## SCOTT LCG

The SCOTT LCG is our signature goggle. Featuring SCOTT's award-winning Lens Change Slider system, the SCOTT LCG raised the bar of performance and innovation. The interchangeable lens and fit systems allow skiers to fully adapt their vision. Thanks to the LCG and its portable low-profile molded lens case, you can now quickly and confidently adjust to whatever the mountain throws at you.

SCOTT LCG COMPACT GOGGLE

239987

SCOTT took the engineering from the popular LCG and made it smaller. New for 2015-16, SCOTT introduces the SCOTT LCG Compact to the LCG family. Featuring the same great technology as the LCG and utilizing a new two-pin sliding, tool-free, SCOTT Fit System, the LCG Compact offers a more unisex fit. Included in every pair is an additional lens in a low-profile molded lens case.

# SCOTT FIX GOGGLE

## THE FIX REBORN

For 2015/16, not only has the SCOTT Fix received facelift but it has been given brand new features. With the integration of articulated outriggers, the Fix has been reborn. These outriggers can be set to two different positions- open or closed- in order to adjust both the helmet fit and the frame ventilation. In the open position, they ensure perfect integration with larger helmets and bring additional ventilation when it is most needed.

## SCOTT FIX GOGGLE

239990

A brand new SCOTT Fix makes its entrance to the game for 2015-16. The SCOTT Fix has articulated outriggers enabling the user to customize the goggle's fit to helmets and adjust the level of frame ventilation. With a thin frame construction, the SCOTT Fix has a large field of vision offering optimal clarity.

LIGHT SENSITIVE  
PERFECT FOR: ALL WEATHER CONDITIONS

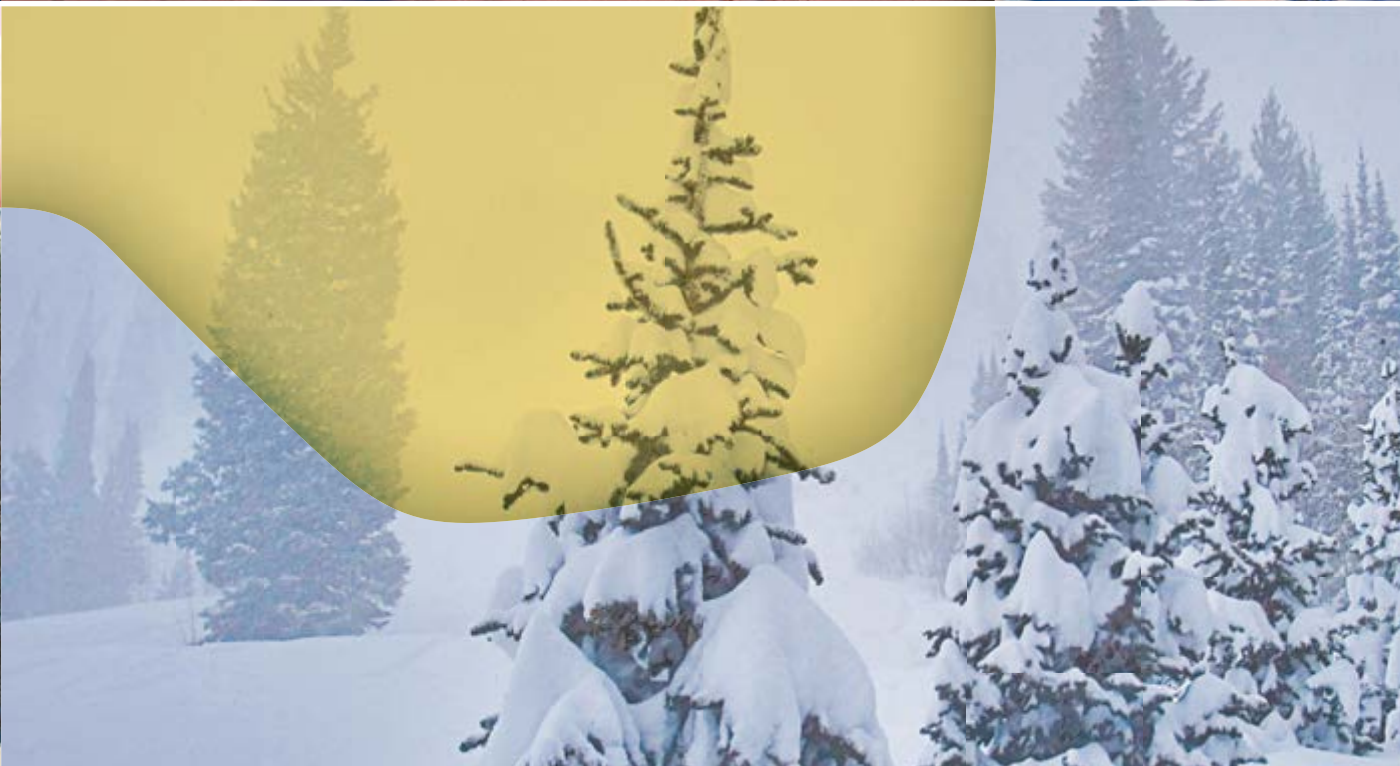

SOLAR BLOCKER  
PERFECT FOR: BRIGHT SUNNY DAYS

AMPLIFIER  
PERFECT FOR: CHANGING WEATHER

ILLUMINATOR  
PERFECT FOR: WHITE SNOWY DAYS

# LIGHT SENSITIVE

**VERSATILITY - EVERYDAY**  
SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. Light Sensitive lenses react to light changes and within seconds the lens will darken if the sunlight gets stronger or lighten if the sunlight gets weaker.

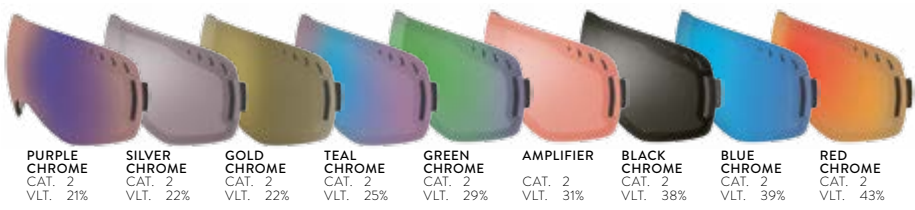

**LIGHT SENSITIVE AMP BLUE CHROME**  
CAT. 2-4  
VLT. 8-22%

**LIGHT SENSITIVE AMP BRONZE CHROME**  
CAT. 1-3  
VLT. 15-45%

# AMPLIFIER

**CONTRAST - CHANGING WEATHER**  
SCOTT-Patented Amplifier Lenses redefine how lenses cut through light and glare to deliver unprecedented levels of terrain definition in all light conditions. The secret to Amplifier technology is its ability to add contrast while increasing clarity and definition.

**PURPLE CHROME**  
CAT. 2  
VLT. 21%

**SILVER CHROME**  
CAT. 2  
VLT. 22%

**GOLD CHROME**  
CAT. 2  
VLT. 22%

**TEAL CHROME**  
CAT. 2  
VLT. 25%

**GREEN CHROME**  
CAT. 2  
VLT. 29%

**AMPLIFIER**  
CAT. 2  
VLT. 31%

**BLACK CHROME**  
CAT. 2  
VLT. 38%

**BLUE CHROME**  
CAT. 2  
VLT. 39%

**RED CHROME**  
CAT. 2  
VLT. 43%

# SOLAR BLOCKER

**COMFORT - BRIGHT AND SUNNY**  
SCOTT Solar Blocker lenses are designed specifically to block high-energy visible light and are for use on the brightest days. Solar Blocker lenses enhance clarity and contrast by reducing the dazzling effect of the sunlight and eliminating the blur caused by unfocused blue light.

**SOLAR BLUE CHROME**  
CAT. 3  
VLT. 13%

**SOLAR BLACK CHROME**  
CAT. 3  
VLT. 18%

# ILLUMINATOR

**LIGHT - LOW LIGHT AND FOGGY - MAXIMIZES CONTRAST WITHIN WHITE - WORKS GREAT IN WHITE OUT CONDITIONS**  
The illuminator lens is designed to perform in low and flat light conditions. Illuminator lens construction consists of SCOTT-Patented Amplifier Lens technology. Yellow tint improves depth perception and a chrome finish helps to minimize glare. This combination provides clarity, enhances definition and improves depth perception.

**ILLUMINATOR BLUE CHROME**  
CAT. 1  
VLT. 61%

**LIGHT AMPLIFIER**  
CAT. 1  
VLT. 45%

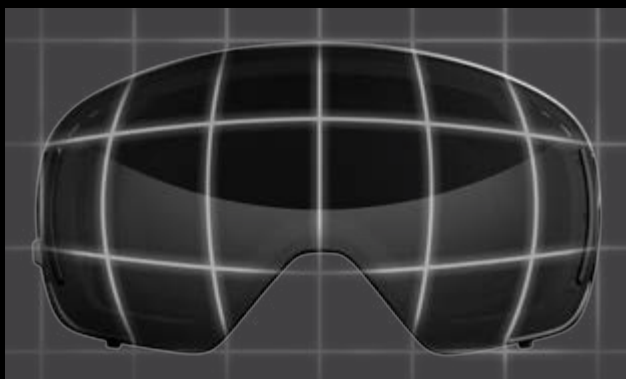

# SCOTT LENS TECHNOLOGIES

## SPO SCOTT PRECISION OPTICS

SCOTT PRECISION OPTICS IS A QUALITY LABEL WHICH STANDS FOR PREMIUM MATERIALS AND INNOVATIVE MANUFACTURING TECHNIQUES. THIS UNIQUE COMBINATION ENABLES US TO OFFER DISTORTION FREE, UV PROTECTED, HIGH PERFORMANCE LENSES OF THE BEST QUALITY.

### ① OUTER LENS TECHNOLOGIES

#### SCOTT OPTIVIEW

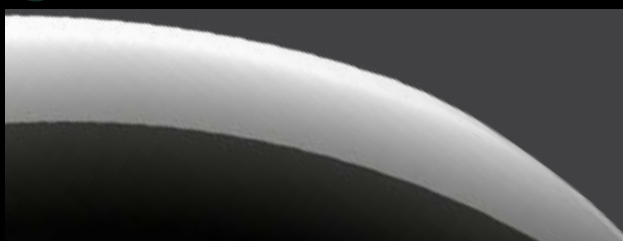

These European manufactured lenses are made of polycarbonate (material,) ensuring comfort and high-impact resistance. SCOTT's proprietary injection molding process and hard coat treatment guarantees that every OptiView lens is optically correct and distortion free. SCOTT OptiView lenses are available as spherical or cylindrical.

#### SCOTT TRUVIEW

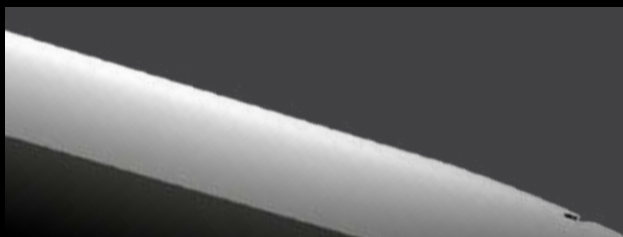

These European manufactured lenses are made of extruded and thermoformed sheets of selected celluloses (CA/CP/PC). TruView lenses pass SCOTT's strict testing procedures delivering high quality, performance lenses. SCOTT TruView lenses are available as cylindrical double or single lens.

### ② LENS SHAPES

#### SPHERICAL LENS

Spherical lenses are manufactured to mimic the shape of the human eye in order to provide superior vision in all directions. A greater chamber volume also helps to fight fogging.

#### CYLINDRICAL LENS

Cylindrical lenses curve from left to right, and are flat from top to bottom. These are low profile, flexible, and offer a unique look.

### ③ FOG RESISTANCE

#### SPACER FOAM AND DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability.

#### ANTIFOG COATING

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

#### AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle.

### ④ EYE PROTECTION

#### UV PROTECTION

All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

### ⑤ EXTERNAL COATINGS

#### HARD COATING

SCOTT hard coating creates a permanent bond with the lens that reduces the appearance of hairline scratches and provides overall lens durability.

#### CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

# SCOTT FRAME TECHNOLOGIES

## FRAME CONSTRUCTIONS

### 1 LENS CHANGE SYSTEMS

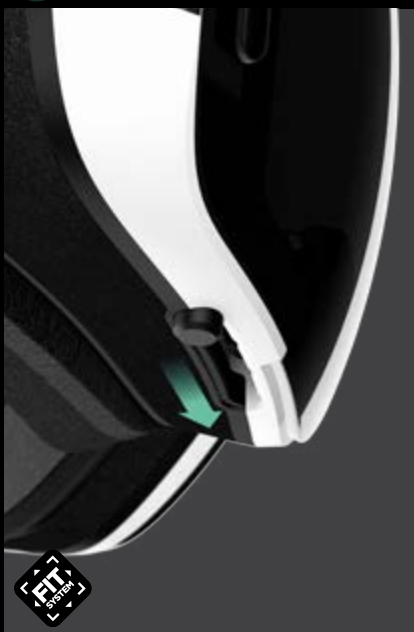

**LCG SYSTEM**  
SCOTT's patent pending Lens Change System offers quick and effortless lens interchangeability. The mechanical slider on the side of the goggle raises the lens off the frame, meaning the lens can easily be changed without having to touch the surface of the lens or take off your gloves.

**EASY LENS CHANGE**  
With only 4 contact points, the innovative system from SCOTT allows the user to change their lens in a matter of seconds.

### 2 FIT ADJUSTMENT

**FIT SYSTEM**  
The patented SCOTT Fit System is a mechanical adjustment located at the bottom of each side of the goggle allowing you to choose between four positions, providing a customized face and nose fit.

### 3 FRAME VENTILATIONS

**STANDARD VENTILATION**  
Frame Ventilation is optimized around the entire frame in order to channel air flow onto the lens, as opposed to the eyes. This technology blocks snow and water from entering the goggle.

**INTEGRATED RAM AIR VENTILATION**  
RAM is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

### 4 FRAME CONSTRUCTIONS

**SKELETON CONSTRUCTION**  
The latest in eyewear technology, Skeleton Construction gives stability to the frame and guarantees distortion free lens positioning, comfort, and a maximum field of vision.

**TRADITIONAL CONSTRUCTION**  
Traditional Construction offers a light, flexible, slim, and comfortable fit.

### 5 FOAM TECHNOLOGIES

**THREE-LAYER MOLDED FACE FOAM**  
SCOTT's premium face foam integrates three layers of ultra-plush, molded foam. The first two layers provide moisture wicking properties to keep you warm and dry. The 3rd layer is a plush flock material that seals out the elements providing an unmatched fit and the highest level of comfort.

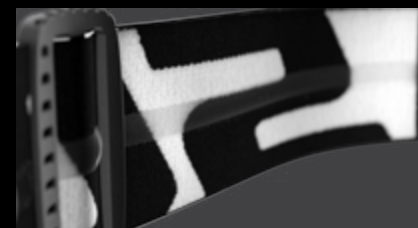

**TWO-LAYER MOLDED FACE FOAM**  
Deluxe, two-layer open celled face foam has excellent moisture absorbing, and thermal properties, guaranteeing that you stay warm, dry, and comfortable all day.

**SINGLE-LAYER FACE FOAM**  
Soft, single density face foam delivers a precise fit around facial features while sealing out the elements.

### 6 HELMET COMPATIBILITY

**SILICONE LINE**  
An adhered silicone strip on the inside of the goggle strap ensures the goggles stay right where they should on a helmet or hat.

**INCORPORATING DESIGN**  
SCOTT goggles are engineered to engage flawlessly with a variety of helmets, including SCOTT's entire helmet line.
