POLES TECHNOLOGIES

S.R.S.
STRAP RELEASE SYSTEM

SCOTT S.R.S. – STRAP RELEASE SYSTEM

THE SCOTT S.R.S. (STRAP RELEASE SYSTEM) IS THE NEXT GENERATION OF SAFETY TECHNOLOGY IN SKI POLES. IMPLEMENTED IN THE NEW SCOTT TEAM ISSUE, ZEO 13 AND RS-18 THE S.R.S. SYSTEM ALLOWS THE STRAP TO RELEASE FROM THE GRIP OF THE POLE IN SKETCHY SITUATIONS TO PREVENT INJURY.

- + Releases quickly while pulling sharply upwards
- + Integrated system for best wearing comfort
- + Safety anywhere and anytime

**RE-ENTRY
SYSTEM**

RE-ENTRY STRAP SYSTEM

THE NEW SCOTT RE-ENTRY STRAP SYSTEM IS A FAST AND EASY-TO-USE STRAP LENGTH ADJUSTMENT SYSTEM UTILIZING THE SAME GREAT TECHNOLOGY USED TO STRAP DOWN GEAR TO THE ROOF OF A CAR. WITH ERGONOMIC DESIGN, THE SCOTT RE-ENTRY STRAP SYSTEM IS DESIGNED WITH SIMPLICITY IN MIND, ALLOWING ONE-HANDED ADJUSTMENT ON THE GO.

- + Fast and easy strap length adjustment
- + Ergonomic design
- + One-handed use

ERGONOMICALLY ENGINEERED GRIPS AND STRAPS

NOTCH STRIKE GRIP

The Notch Strike Grip has been ergonomically engineered using soft thermoplastic rubber and polypropylene. The lightweight, streamlined profile facilitates the necessary wrist articulation.

P-CORE GRIP

The P-Core Grip features injection-molded, soft thermoplastic rubber, significantly increasing your grip on the pole.

P-LITE GRIP

The P-Lite Grip is engineered to blend ergonomic comfort with durability.

EG L GRIP

New for 2015-16 is the low-extended version of the EG+ Grip, offering a 25cm grabbing zone.

EG+ GRIP

The EG+ Grip is designed for going bigger and wider. The system combines a 10 cm extension. The low profile makes this grip extremely comfortable and easy to hold.

2K RUBBER GRIP

The two-component grip offers a six-degree corrective angle for the best comfort for mountaineering.

FOAM CORK GRIP

This Foam Grip is designed for multi-season use with bare hands.

FOAM GRIP

The low profile makes this grip extremely comfortable and easy to hold.

JUNIOR NOTCH GRIP

The Junior Notch Grip is our Notch Strike Grip for smaller hands.

JUNIOR JOYSTICK GRIP

Put down your video games, grab onto the Joystick grip and go skiing. SCOTT's ergonomically engineered Joystick Grip is the answer for smaller hands.

STRAPLESS GRIP

The Strapless Grip brings SCOTT's legendary pole grip design into the future. Simple, easy, and functional, the Strapless Grip makes its 2015-16 debut on size S in the women's line. Easy and fast to grab - Combination of materials for best performance - Lightness and comfort

LITE STRAP

The Lite Strap is lightweight and ergonomic, providing minimal interference. The ergonomically engineered left and right straps guarantees the best comfort and performance.

EG + STRAP

The EG + Straps are built with the same high performance PU Kevlar material as the Lite Strap.

RE-ENTRY STRAP

SCOTT's Re-entry Strap System features fast and easy adjustment buckle system. The FX 15X25 straps are designed with a 25 mm wide strap on the back of the hand for additional support and comfort. The Re-Entry system provides a fast switch on the grabbing position.

COMFORT STRAP

The Comfort Strap incorporates a molded rubber platform for your hand, coupled with a woven nylon strap, ensuring a comfortable grip.

FX 15X25 STRAP

The FX 15X25 straps feature an increased strap width on the back of the hand for additional support. The injection-molded nylon buckle exceeds a tensile strength of 800 psi.

FX 24 STRAP

The FX 24 strap is a parallel strap. It features an over-molded buckle and is slightly slimmer than the FX 15X25 strap.

JUNIOR ADJUSTABLE STRAP

The length and shape of the Junior Adjustable strap is engineered to fit children's hands.

ADJUSTABLE COMFORT STRAP

The Adjustable Comfort Strap guarantees with the neoprene padding best wearing comfort.

NYLON STRAP

The Adjustable Strap guarantees best wearing comfort.

AERODYNAMICALLY ENGINEERED POLE BASKETS

RACE BASKET

The race basket is designed to minimize drag and wind resistance when racing. This basket is featured on our slalom race poles.

POWDER BASKET

The powder basket is designed for powder performance, excelling in traversing situations. The basket is a solid 90 mm in diameter and has strategic holes to maintain a swing weight that is comfortable for everyday use.

DEEP POW BASKET

Designed for bottomless powder, the deep pow basket uses a 9 cm disk provides extra flotation preventing the pole from sinking any deeper than needed.

3.6 DISC BASKET

The 3.6 Disc Basket blends aerodynamic efficiency, durability and design. The 3.6 disc basket is 60 mm in diameter.

3.8 DISC BASKET

The 3.8 Disc Basket is identical to the 3.6, but with a 80mm in diameter for better performance in powder.

TÜV BASKET

The TÜV basket is a high-performance, aerodynamic basket and is found on the Junior/Kid 540 poles and aluminum rental poles.

WINTER BASKET

The quick release ferrules mounted on all the mountain poles allow baskets to be easily removed and interchanged.

INTERCHANGEABLE S 3.0 AND S 8.0

The interchangeable baskets are found on the MOUNTAIN poles line for all-year use. Available in two sizes: 30 mm and 80 mm.

ENGINEERED POLE TIPS

CARBON DIAMOND TIPS

Carbon Diamond Tip is a compound containing equal parts of tungsten and carbon and is approximately three times stiffer than steel. This high performance tip enhances traction on ice and guarantees better durability.

ANODIZED TIP ADAPTER

The Anodized Tip Adapter is designed to strengthen the tip of composite poles and is manufactured from aluminum alloy and pairs with the ice tip.

RACING TIP

The Racing Tip is engineered specifically for racing.

PA ADAPTER WITH ICE AXE TIP

The PA Adapter is designed to strengthen the tip section of composite poles and is manufactured from polyamide, with an axe tip. Available in sizes: 11 mm and 9 mm.

ICE TIP

The Ice Tip is diamond shaped for unbeatable hold in extreme conditions.

DURAFLEX CARBIDE TIP

The Duraflex Carbide Tip offers greater flexibility and reduces stress on pole tip.

CONE TIP

The Cone Tip is manufactured from hardened steel and designed for strength and durability.
