## Introducing Pure Mountain 2 Layer and 3 Layer Shell Garments

For those of us that seek the "Path Less Trodden" we now have the perfect mountain apparel line ... Pure Mountain.

The Pure Mountain series of lightweight 2 and 3 layer non-insulated jackets and pants gives outdoor enthusiasts the very best in waterproof, windproof and breathable performance thanks to their use of 100% recyclable SympaTex<sup>®</sup> fabric.

The fully functional and ergonomic design of Pure Mountain outdoor apparel is complemented by the four-way, 300% mechanical stretch SympaTex<sup>®</sup> fabric that is highly-elastic and extremely durable for that extra flexibility needed to reach your goals.

All Pure Mountain garments are 100% recyclable, 100% free from environmentally harmful chemicals and made using already recycled consumer products.

Men's

## Introducing our new Pure Mountain Layering range...

Designed with versatility in mind, Pure Mountain Layering jackets can perform as a warm inner layer to boost winter insulation in ice-cold conditions and yet are sleek and cosy enough to wear on their own as a city jacket. The line-up also includes a lightweight down vest – a stylish layering option that's perfect for maintaining core warmth and unencumbered movement in your arms.

Each garment is filled with highly-efficient PrimaLoft<sup>®</sup> insulation to offer the best weight-to-warmth ratio and is made with highly-durable nylon to withstand harsh conditions and high-wear areas. Whether climbing, backpacking or walking around town, the incredible lightweight and packable design makes it easy to compress, store and carry your favourite down jacket wherever you go.

All Pure Mountain Layering garments are 100% recyclable, 100% free from environmentally harmful chemicals and made using already recycled consumer products.
