

PURE[®]
SNOW

Men's

Introducing Pure Snow Insulated Garments...

Helping snow lovers achieve those punishing body positions in deep powder!

Our Pure Snow collection of high-performance ski jackets and pants are constructed to enhance your skiing and snowboarding experience. Engineered interiors around the elbows and knees plus 100% seam-sealed contoured panels follow the shape of your body for greater range of motion.

Staying warm and dry on the mountain is just as important. That's why our Pure Snow range features SympaTex[®] waterproof fabric – rated at an industry-leading 45,000mm – and premium PrimaLoft[®] Silver Insulation Eco. All these features prove that Pure Snow jackets and pants provide the perfect balance between performance, warmth and style while never losing sight of our responsibility to Mother Nature and our legacy to the future.

All Pure Snow garments are 100% recyclable, 100% free from environmentally harmful chemicals and made using already recycled consumer products.

NEW AND IMPROVED FEATURES FOR 2016 STYLES

The new enhanced "Internal Fit System" - IFS provides the ability for the inside of the garment to move freely with the body and work with the mechanical stretch outer shell to allow for optimum comfort and performance. Internal poly stretch panels provide additional insulation and warmth to strategic areas of the body protecting muscular flexibility and skeletal performance all components of the IFS are true to our recycle philosophy - constructed from recycled products and recyclable at the end of the garment life.

We see the introduction of men's 3XL. This size has been graded larger than our standard 3XL in Pure Riderz, so the jump from 2XL to 3XL will be 3" instead of the standard 2". This will apply to the chest & bottom of the jacket. This also applies to the pants.

New and improved body & sleeve lengths for style Hakuba.
New and improved leg length, hip, thigh, front & back rise style Copper.
Upgraded measurements on waist powder skirts and grip tight snow gaiter.

This pocket is accessible when you open the front placket, without having to unzip the entire jacket it can be utilised as a phone pocket or security pocket.

We have repositions the Recco, and added 3M reflective printing

PURE[®] SNOW

Women's

Introducing Pure Snow Insulated Garments...

Helping snow lovers achieve those punishing body positions in deep powder!

Our Pure Snow collection of high-performance ski jackets and pants are constructed to enhance your skiing and snowboarding experience. Engineered interiors around the elbows and knees plus 100% seam-sealed contoured panels follow the shape of your body for greater range of motion.

Staying warm and dry on the mountain is just as important. That's why our Pure Snow range features SympaTex[®] waterproof fabric – rated at an industry-leading 45,000mm – and premium PrimaLoft[®] Silver Insulation Eco. All these features prove that Pure Snow jackets and pants provide the perfect balance between performance, warmth and style while never losing sight of our responsibility to Mother Nature and our legacy to the future.

All Pure Snow garments are 100% recyclable, 100% free from environmentally harmful chemicals and made using already recycled consumer products.

NEW AND IMPROVED FEATURES FOR 2016 STYLES

INTERNAL FIT SYSTEM

The new enhanced "Internal Fit System" - IFS provides the ability for the inside of the garment to move freely with the body and work with the mechanical stretch outer shell to allow for optimum comfort and performance. Internal poly stretch panels provide additional insulation and warmth to strategic areas of the body protecting muscular flexibility and skeletal performance all components of the IFS are true to our recycle philosophy - constructed from recycled products and recyclable at the end of the garment life.

Up to size 18

We see the introduction of women's size 18. This size has been graded larger than our standard 18 in Pure Riderz, so the jump from 16 to 18 will be 3" instead of the standard 2". This will apply to the chest & bottom of the jacket. This also applies to the pants.

NEW SIZE SPECS

New and improved body & sleeve lengths for style Hakuba.
New and improved leg length, hip, thigh, front & back rise style Ruapehu.
Upgraded measurements on waist powder skirts and grip tight snow gaiter.

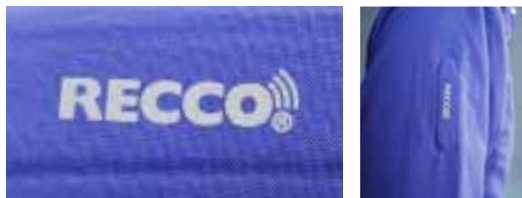

NEW HIDDEN POCKET

This pocket is accessible when you open the front placket, without having to unzip the entire jacket it can be utilised as a phone pocket or security pocket.

RECCO REFLECTIVE PRINT

We have repositions the Recco, and added 3M reflective printing
